

## Declaration of PFAS Content

Insignis Technology Corporation, Inc. (“Insignis”) has used its commercially reasonable efforts to survey its suppliers and obtain relevant information of our products, based on the results of testing conducted by the third-party testing laboratory to assess whether the products may contain Per-and polyfluoroalkyl substances ("PFAS"). Due to the diverse nature of PFAS, testing conducted by third-party testing laboratory is currently limited to 477 types of PFAS (Please refer to "Appendix 1 PFAS Testing Result"). There are no other testing methods or capabilities to determine the presence of other PFAS.

Based on the acquired information, Insignis hereby declares the following "Insignis products PFAS Content Table:"

**Insignis products PFAS Content Table:**

| Test Item(s)                                                                                | CAS No.    | Result    | Included Material |
|---------------------------------------------------------------------------------------------|------------|-----------|-------------------|
| 1,1,2,2,3,3,4,4,4-nonafluoro-N-(2-hydroxyethyl)-N-methylbutane-1-sulphonamide (PFBS-NC3H8O) | 34454-97-2 | 0.0334ppm | 0.0334ppm         |

**Applicable Product Part or Model Number:** (Please list the relevant part numbers here)

| Product Part or Model Number                            |
|---------------------------------------------------------|
| * applies to all Insignis DRAM and Flash Memory part #s |

This signature below verifies that the statement above is valid and accurate.
